INTERIOR SELLADOR BLANCO (INDOOR WHITE SEALING)

PRODUCT DESCRIPTION

White environmentally friendly water-based sealing primer. Aqueous and single component, made from acrylic resins. Specially formulated for sealing interior furniture wood. Non-flammable and virtually odourless.

GENERAL FEATURES

- Application by brush, short-haired roller, and all types of spraying equipment (airbrushing).
- Fast drying and stacking.
- Good sanding.
- Excellent performance as 'anti-tannins'.
- Good outdoor resistance.
- Yellowing resistance.
- Utensil cleanup with water.

CHARACTERISTICS

Viscosity Brookfield 10 rpm	4000 cp.
Specific weight	1,310 g/cm ³ .
Dry extract	38%
pH	4.7
Appearance in the container	Fluid liquid.
Dry film appearance	White.
Stability without opening the container (protect from frosts)	12 months.

APPLICATION

Support and preparation: Veneers, solid wood, and MDF boards. Do not apply on woods containing more than 12% moisture (UNE standard 56810-86). For woods of unknown behaviour, prior testing is recommended. Prepare the wood by sanding. It is advisable to refine with fine grain for better filling and coverage. Remove dirt, grease, sanding residues, etc.

Application: Homogenize the varnish before use. Apply 1-2 coats of 120-140 g/m². For spray application, the varnish is supplied at the precise viscosity. For brush and/or roller application, if necessary to dilute, it is recommended to do so with water. Do not apply below 12°C. It is advisable to acclimate the product (20-25°C).

Drying times:

Drying	1-2h
Sanding and Repainting	3-6h

The drying time is greatly influenced by the thickness, the type of substrate, and the environmental conditions during drying.

Sanding: Sand using vibrating machines, orbital sanders, polishers, or by hand. Conduct gentle sanding between coats with fine sandpaper (280-320 grit).

PRESENTATION:

WHITE

OBSERVATIONS: Water-based white primer known for its fast drying, easy sanding, and stacking resistance. Recommended to finish with 'ACABADO BLANCO' (White Finish). Specifically designed for sealing interior and exterior furniture wood.
