The values shown in this data sheet are key data and should not be regarded as a specification. The client can and must examine the goods supplied by us, verifying their qualifications and ability to obtain ends pursued. A correct application, proper use, changes in working conditions, etc., remain outside of our control, whichever therefore hold the customer. From all the review, is understood to fully guarantee the quality of our products because of the sale and supply commitments previously acquired.

APPLICATION

Support and preparation: Suitable for cleaning all types of wood. Remove dust and dirt from the surface before use.

Application:

- Apply RENOVADOR generously with a brush in thick layers (100-200 g/m2) on the wood and let it sit for approximately 20-30 minutes.
- For persistent stains, repeat the process.
- Thoroughly clean the wood with preferably pressurized water, ensuring to deeply remove any residues of the applied product.

Cleaning of tools: Use water.

OBSERVATIONS: Thoroughly homogenize the product before use. Water-based product. Follow the Safety Data Sheet instructions when using.
